PROJECTS

- **Expense Tracker Mobile App** — *2025*
  AI-Integrated Android Application — **Github**
  - Developed a full-featured personal expense tracking mobile application to help users manage daily expenses, track budgets, and analyze spending patterns using interactive dashboards and visual analytics.
  - End-to-End Mobile Development: Architected and built a feature-rich mobile app using Flutter Dart, implementing complex logic for "You Gave/You Got" transactions with real-time net balance updates.
  - Implemented interactive dashboards with visual analytics (category-wise charts monthly comparisons) along with account book, PDF export, data backup/restore, and dark mode to enhance real-world usability and user experience.

- **MEDICINE TRACKER APP** — *2026*
  AI-Integrated Android Application — **Github**
  - Designed and developed an AI-integrated Medicine Tracker mobile application to help users manage daily medication schedules efficiently.
  - Implemented real-time alarm notifications ensuring medicines are taken on time, even when the app is running in the background.
  - Integrated AI assistance to guide users in adding medicines, understanding reminders, and improving usability through smart suggestions.
  - Designed a clean and intuitive UI focused on accessibility and ease of use for all age groups.
    Ensured local data persistence so reminders work offline without internet dependency.

- **PORTFOLIO WEBSITE** — *2025*
  Designed a beautiful, responsive Portfolio Website built with modern web technologies. — **Link**
  - Tools technologies used: Built a modern, responsive portfolio website using React 18, Type Script, Tailwind CSS, and Framer Motion with sleek animations and modular design.
  - Implemented Radix UI for accessible, polished components and TanStack Query for efficient state management. Deployed seamlessly on Netlify/Vercel, ensuring high performance and responsiveness across all devices

- **Daily News Web Dashboard (API-Driven Frontend Project)** — *2025*
  Designed a beautiful, responsive Daily News Web Dashboard . — **Link**
  - Developed a 3D dark-themed responsive news dashboard using Tailwind CSS JavaScript, featuring hover lift, glass cards, breaking news ticker, and clean modern UI.
  - Integrated NewsAPI for cache-free real-time news fetching across Sports, Health, Technology Latest sections, with dynamic search and pagination to avoid duplicate content.

TECHNICAL SKILLS

- **Programming Languages**: Java, C++, Python, Html, Css, JavaScript, React
- **Coursework**: Data Structure and Algorithm,Database Management System (DSA),Object Oriented Programming(Oops in JAVA),Problem Solving and Computer Programming
- **Cloud/Databases**: Oracle SQL
- **Soft Skills**: Leadership,Adaptability,Team Work

CERTIFICATIONS

- **Certificate** Deloitte Australia Data Analytics Job Simulation on Forage- October 2025
- **Java** Coding Thinker 2024
- **Object Oriented Programming (C++)** Anupa Classes 2023

POSITIONS OF RESPONSIBILITY

- **Volunteer**,NSS — *2019*

MISCELLANEOUS

- **Solved 100+**,coding questions on different platform
- **Cricket**,Player of the match in college cricket match
